PRICING STRUCTURE

Every pound from your membership fee is directly reinvested into Marketing Nottingham & Nottinghamshire's activities, ensuring our region remains at the forefront.
To ensure fairness and transparency, we will be introducing a tiered pricing structure based on company size, determined by annual turnover and the number of employees. This approach allows us to better align membership fees with the resources and benefits available to your business.

While we have taken great care to accurately categorise your company using data from public records such as Companies House and Beauhurst, we understand that these sources may not always reflect your current circumstances. If you believe your company has been placed in the incorrect category, please do get in touch with us so we can rectify any inaccuracies.

If you have any questions or would like to discuss the new pricing structure further, we are here to assist and we would be delighted to meet with you.
